

TURKEY HILL NEW WAREHOUSE BUILDING AND SUPPORT FACILITIES Conestoga, PA

Client
Turkey Hill Dairy

Year Completed
2016 (est.)

Project Size
113,000 SF

BH provided structural engineering services for a new warehouse building and support facilities on a 32-acre greenfield site to the west of the existing warehouse and production facility. The project included a new 78,000-SF refrigerated DSD/corrugated warehouse with a 10,000-SF attached office, water storage tank, 25,000-SF wash bay, and fleet maintenance building with fuel island.
